Design Philosophy

> "Organize your brain, not your life"

OIA products are built for ADHD brains. Every design decision must reduce cognitive load, create calm, and reward action. We are warm, not clinical. Supportive, not

demanding. Simple, not overwhelming.

Core Principles

Principle	Implementation
One thing at a time	Each screen has ONE purpose, ONE primary action
Calm over stimulation	Muted tones, generous whitespace, no visual noise
Reward over guilt	Celebrate completion, never punish missed days
Friendly over corporate	Soft edges, warm colors, human voice
Accessible by default	High contrast options, large touch targets, readable type

Visual Direction

- We ARE: Warm, calming, supportive, human, friendly, soft, approachable
- We are NOT: Cold, corporate, aggressive, clinical, demanding, harsh, sterile

Color Palette

Brand Colors

Name	Hex	RGB	Usage
Sage	#8BA888	139, 168, 136	Primary actions, buttons, success states, checkmarks, completion
Sage Dark	#7A9676	122, 150, 118	Hover/pressed states
Sage Light	#96B893	150, 184, 147	Dark mode primary

| **Coral** | `#E8A598` | 232, 165, 152 | Brand identity, headers, warm accents, highlights |

| **Coral Dark** | `#D99A8E` | 217, 154, 142 | Dark mode accent |

| **Coral Light** | `#F0B5A8` | 240, 181, 168 | Subtle accents |

Background Colors

Light Mode

Name	Hex	RGB	Usage
Cream	`#F5F2ED`	245, 242, 237	Primary background
Warm White	`#FDFCFA`	253, 252, 250	Cards, elevated surfaces, inputs

Dark Mode

Name	Hex	RGB	Usage
Dark BG	`#1A1A1A`	26, 26, 26	Primary background
Dark Card	`#242424`	36, 36, 36	Cards, elevated surfaces
Dark Elevated	`#2E2E2E`	46, 46, 46	Modals, popovers

Note: Never use pure black (`#000000`) or pure white (`#FFFFFF`). Always warm-tinted neutrals.

Supporting Colors

Name	Hex	RGB	Usage
Dusty Blue	`#7A8FA3`	122, 143, 163	Secondary elements, icons, metadata, info states

| **Taupe** | `#A69485` | 166, 148, 133 | Neutral UI, borders, disabled states, pending status |

| **Olive** | `#6B6B5E` | 107, 107, 94 | Tertiary elements, subtle backgrounds, dark mode borders |

| **Mustard** | `#C9A86C` | 201, 168, 108 | Highlights, warnings, in-progress status |

Text Colors

Light Mode

Name	Hex	Usage
Charcoal	`#2D2D2D`	Primary text, headings
Stone	`#5C5C5C`	Secondary text, descriptions
Muted	`#8C8C8C`	Placeholder text, hints, captions

Dark Mode

Name	Hex	Usage
Off-White	`#F0EDE8`	Primary text, headings
Warm Gray	`#A8A8A8`	Secondary text, descriptions
Muted Dark	`#6C6C6C`	Placeholder text, hints, captions

Semantic Colors

Name	Hex	Usage
Success	`#8BA888`	Completion, checkmarks, positive feedback (Sage)
Warning	`#C9A86C`	Gentle alerts, in-progress, attention needed (Mustard)
Error	`#D4847A`	Errors, failures — muted, not aggressive (Coral-red)

| **Info** | `#7A8FA3` | Informational messages, tips (Dusty Blue) |

Status Badge Colors

| Status | Background | Text |

|-----|-----|-----|

| **Completed** | `#8BA888` at 20% opacity | `#8BA888` |

| **In Progress** | `#C9A86C` at 20% opacity | `#C9A86C` |

| **Pending** | `#A69485` at 20% opacity | `#A69485` |

Typography

Font Family

Primary: Nunito

Fallback: -apple-system, BlinkMacSystemFont, 'Segoe UI', Roboto, sans-serif

Why Nunito: Rounded terminals create a friendly appearance. Excellent readability at all sizes. Free via Google Fonts. Matches our soft, approachable aesthetic without feeling childish.

Installation (React Native/Expo):

```
``bash
npx expo install @expo-google-fonts/nunito
``
```

Type Scale

| Name | Size | Weight | Line Height | Usage |

----- ----- ----- ----- -----	
Display 32px 700 (Bold) 1.2 Hero text, main prompts, celebration messages	
H1 24px 700 (Bold) 1.3 Screen titles	
H2 20px 600 (SemiBold) 1.3 Section headers, card titles	
Body 16px 400 (Regular) 1.5 Primary content, descriptions	
Body Small 14px 400 (Regular) 1.5 Secondary content, metadata	
Caption 12px 400 (Regular) 1.4 Timestamps, labels, hints	
Button 16px 600 (SemiBold) 1.0 Button labels	

Typography Rules

- ****Minimum readable text:**** 12px (Caption)
- ****Minimum touch target text:**** 14px
- ****Maximum line length:**** 65 characters (for readability)
- ****Never use all caps**** except for very short labels (2-3 words max)
- ****Letter-spacing on buttons:**** +0.5px for better readability
- ****Paragraph spacing:**** 1.5× the font size

Spacing System

****Base unit:**** 8px

All spacing should be multiples of 8px for visual consistency.

Token	Value	Usage
----- ----- -----		
`xs`	4px	Tight gaps, icon padding, inline elements
`sm`	8px	Related elements, icon margins

- | `md` | 16px | Standard gaps, card padding |
- | `lg` | 24px | Section separation, generous padding |
- | `xl` | 32px | Major sections, screen margins |
- | `xxl` | 48px | Screen padding top/bottom, hero spacing |

Screen Layout

- | Area | Spacing |
- |-----|-----|
- | **Horizontal padding** | 24px (lg) |
- | **Top safe area + padding** | 48px minimum (xxl) |
- | **Bottom above nav** | 32px (xl) |
- | **Between sections** | 24px (lg) |
- | **Between related items** | 8-16px (sm-md) |

Border Radius

- | Token | Value | Usage |
- |-----|-----|-----|
- | `sm` | 8px | Small elements, chips, badges, checkboxes |
- | `md` | 12px | Buttons, inputs, small cards |
- | `lg` | 16px | Cards, list items |
- | `xl` | 24px | Modal sheets, large containers |
- | `full` | 9999px | Pills, avatars, circular buttons |

Design principle: Always rounded. Sharp corners feel aggressive and clinical. Our UI should feel soft and safe.

Shadows

Light Mode Shadows

Name	Definition	Usage
Small	0 1px 3px rgba(0,0,0,0.05)	Cards, subtle elevation
Medium	0 2px 8px rgba(0,0,0,0.08)	Floating elements, dropdowns
Large	0 4px 16px rgba(0,0,0,0.1)	Modals, popovers
Button	0 2px 8px rgba(139,168,136,0.3)	Primary buttons (sage-tinted)

Dark Mode Shadows

Shadows are less visible in dark mode. Rely more on border/background differentiation:

Name	Definition	Usage
Small	0 1px 2px rgba(0,0,0,0.3)	Cards
Medium	0 2px 4px rgba(0,0,0,0.4)	Floating elements
Large	0 4px 8px rgba(0,0,0,0.5)	Modals

Components

Primary Button (CTA)

...

Break it down

...

Property	Value
Background	Sage (`#8BA888`)
Text	Warm White (`#FDFCFA`)
Height	56px
Min Width	120px
Border Radius	12px (md)
Font	16px SemiBold
Shadow	Button shadow (sage-tinted)
Padding	0 24px

****States:****

- ****Default:**** As above
- ****Pressed:**** Background darkens 10% (`#7A9676`)
- ****Disabled:**** Background Taupe (`#A69485`), text at 50% opacity

Secondary Button

Property	Value
Background	Transparent
Border	2px solid Sage (`#8BA888`)
Text	Sage (`#8BA888`)
Height	56px
Border Radius	12px (md)
Font	16px SemiBold

****States:****

- ****Pressed:**** Background Sage at 10% opacity
- ****Disabled:**** Border and text Taupe at 50% opacity

Text Input

...

What do you need to do?

...

Property	Value
Background	Warm White (`#FDFCFA`) / Dark Card in dark mode
Border	1px solid Taupe (`#A69485`)
Border (focused)	2px solid Sage (`#8BA888`)
Height	56px
Border Radius	12px (md)
Padding	0 16px
Text	Charcoal (`#2D2D2D`) / Off-White in dark mode
Placeholder	Muted (`#8C8C8C`)

Task Card

...

Pick up clothes from floor

Est. 5 min

...

| Checkbox | 24px, Sage when checked |

- Background slightly muted (Cream / Dark Elevated)

Checkbox

A diagram showing a linear chain of three nodes. Each node is represented by a vertical line segment. The nodes are connected by horizontal dashed lines. The first node is on the left, connected to the second node in the middle, which is connected to the third node on the right.

| **Disabled** | 50% opacity |

Progress Bar

///

///

| Track Height | 8px |

Track Color	Taupe at 25% opacity (light) / Dark Elevated (dark)
Fill Color	Sage (`#8BA888`)
Border Radius	4px

Status Badge

...

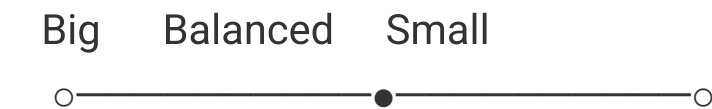

...

Status	Background	Text	Dot
Completed	`#8BA888` at 20%	`#8BA888`	Sage
In Progress	`#C9A86C` at 20%	`#C9A86C`	Mustard
Pending	`#A69485` at 20%	`#A69485`	Taupe

Granularity Slider

For the Big / Balanced / Small task breakdown control:

...

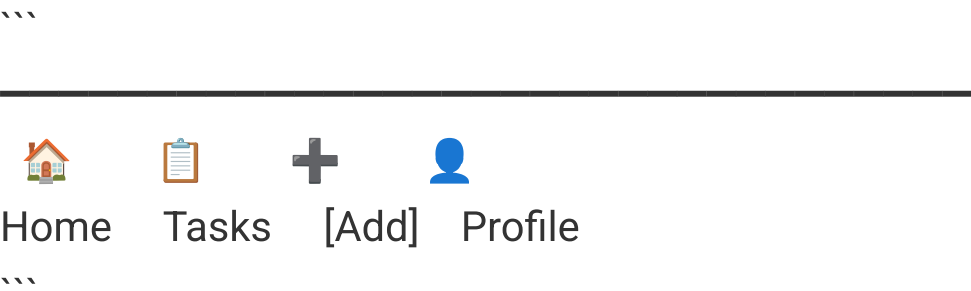

...

Property	Value
Track	4px height, Taupe at 40%
Active Track	Sage

- | Thumb | 24px circle, Coral fill, small shadow |
- | Labels | Caption size (12px), Stone color |
- | Active Label | Body size (16px), Charcoal, SemiBold |

Bottom Navigation

- | Property | Value |
- |-----|-----|
- | Background | Warm White / Dark Card |
- | Height | 64px + safe area |
- | Active Icon | Sage |
- | Active Label | Sage, Caption size |
- | Inactive Icon | Taupe |
- | Inactive Label | Muted, Caption size |

Floating Action Button (FAB)

- | Property | Value |
- |-----|-----|
- | Size | 56×56px |
- | Background | Sage |
- | Icon | White, 24px |
- | Border Radius | full (circle) |
- | Shadow | Large |
- | Position | Bottom right, 24px from edges |

Loading Spinner

Property	Value
	----- -----
Size	32px (default), 24px (small), 48px (large)
Color	Sage
Style	Simple circular rotation
Animation	1s linear infinite

Skeleton Loader

Property	Value
	----- -----
Background	Taupe at 20% (light) / Dark Elevated (dark)
Animation	Pulse opacity 0.3 → 0.7, 1.5s ease-in-out
Border Radius	Match component being loaded

Toast / Snackbar

...

✓ Task breakdown complete

...

Type	Background	Icon/Text
	----- -----	
Success	Sage	White
Warning	Mustard	Charcoal
Error	Error (`#D4847A`)	White

| Info | Dusty Blue | White |

| Property | Value |

|-----|-----|

| Position | Bottom, 24px from bottom nav |

| Height | 48px |

| Border Radius | 12px |

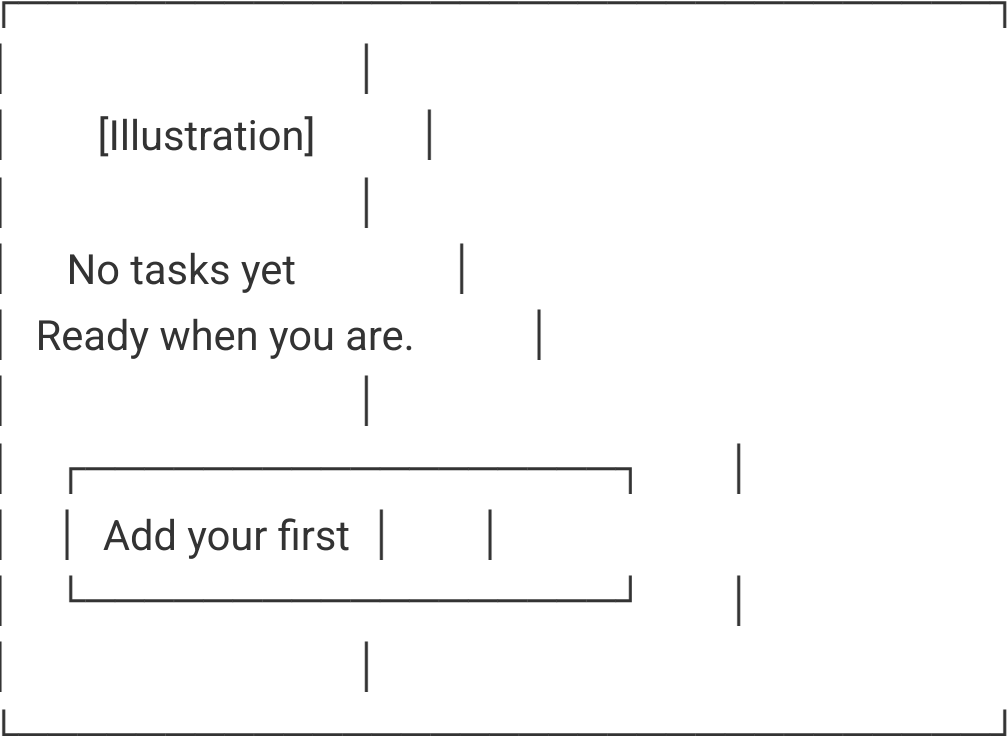

| Padding | 12px 16px |

| Duration | 3 seconds (auto-dismiss) |

| Animation | Slide up + fade in |

Empty State

...

...

| Element | Style |

|-----|-----|

| Illustration | Soft, warm colors, friendly imagery |

| **Headline** | H2, Charcoal |

| **Subtext** | Body, Stone |

| **CTA** | Secondary button |

Motion & Animation

Principles

1. **Purposeful:** Animation confirms actions, never decorates randomly
2. **Quick:** 150-350ms for most interactions
3. **Calm:** Ease-out curves, no aggressive bouncing
4. **Rewarding:** Completion animations should feel satisfying

Duration Scale

| **Token** | **Value** | **Usage** |

|-----|-----|-----|

| **`fast`** | 150ms | Button press, micro-feedback |

| **`normal`** | 250ms | Standard transitions, cards appearing |

| **`slow`** | 350ms | Screen transitions, complex animations |

Easing

- **Default:** **`ease-out`** (fast start, gentle finish)
- **Enter:** **`ease-out`**
- **Exit:** **`ease-in`**
- **Move:** **`ease-in-out`**

Key Animations

| Action | Animation | Duration |

|-----|-----|-----|

| Button press | Scale to 0.97 | 100ms |

| Checkbox complete | Fill + checkmark draw | 300ms |

| Card appear | Fade in + slide up 8px | 250ms |

| Card exit | Fade out + slide down 8px | 200ms |

| Screen transition | Fade + slide | 300ms |

| Toast appear | Slide up + fade in | 250ms |

| Toast dismiss | Fade out | 200ms |

| Pull to refresh | Rotate spinner | Continuous |

Completion Celebration

When user completes ALL subtasks:

1. Final checkbox animates (150ms)
2. Brief pause (100ms)
3. Celebration burst — confetti or particles (500ms)
4. "You did it! 🎉" message fades in (250ms)
5. Gentle haptic feedback (if available)

****Keep it brief and joyful, not overwhelming.****

ADHD-Specific UX Rules

These rules are NON-NEGOTIABLE for all OIA products.

Must Follow

| Rule | Rationale |

|-----|-----|

| ****One primary action per screen**** | Reduces decision paralysis |

| ****No streaks**** | Missing a day shouldn't feel like failure |

| ****No guilt copy**** | Never shame the user |

| ****Large touch targets (min 48px)**** | Reduces frustration from mis-taps |

| ****Instant feedback**** | Every tap must have visual/haptic response |

| ****Forgiving inputs**** | Auto-save, easy undo, no "are you sure?" spam |

| ****Minimal required fields**** | Ask for least possible information |

| ****Progressive disclosure**** | Hide complexity until needed |

| ****Clear visual hierarchy**** | User knows where to look in <1 second |

| ****Escape hatches**** | Easy to go back, undo, or start over |

Copy Guidelines

| Instead of... | Write... |

|-----|-----|

| "You haven't finished..." | "Ready to continue?" |

| "Don't forget to..." | "Your tasks are here when you need them" |

| "You missed yesterday" | [Say nothing] |

| "Complete your profile" | "Add more when you're ready" |

| "Task failed" | "That didn't work — try again?" |

| "Error" | "Something went wrong" |

| "Invalid input" | "Let's try that again" |

| "Are you sure?" | [Just do it, make undo easy] |

Timing Considerations

| Action | Guideline |

|-----|-----|

- | Loading states | Show skeleton immediately, content within 2s |
- | Auto-save | Save continuously, never ask |
- | Session timeout | Generous (30+ min), restore state on return |
- | Notifications | Opt-in only, never guilt-based |

Accessibility

Color Contrast (WCAG AA)

All text must meet minimum contrast ratios:

- | Text Type | Minimum Ratio |
- |-----|-----|
- | Normal text (<18px) | 4.5:1 |
- | Large text (≥18px or 14px bold) | 3:1 |
- | UI components | 3:1 |

Verified Combinations

- | Combination | Ratio | Status |
- |-----|-----|-----|
- | Charcoal on Cream | 10.5:1 |  AAA |
- | Charcoal on Warm White | 11.2:1 |  AAA |
- | Off-White on Dark BG | 12.1:1 |  AAA |
- | Sage on Warm White | 3.2:1 |  AA Large |
- | Warm White on Sage | 3.2:1 |  AA Large |

****Note:**** Sage buttons with white text pass for button-sized text (16px semibold).
For smaller text on sage backgrounds, use Charcoal.

Touch Targets

Type	Size
Minimum	48 × 48px
Recommended	56 × 56px
Spacing between targets	
8px minimum	

Screen Reader Support

- All interactive elements must have accessible labels
- Images must have alt text
- State changes must be announced
- Focus order must be logical
- Custom components must have proper roles

Motion Sensitivity

- Respect `prefers-reduced-motion` setting
- Provide option to disable animations
- Never use motion that could trigger vestibular issues

React Native Implementation

Theme File

```
`typescript
// theme/OIATheme.ts
```

```
export const OIAColors = {

## ## Color Migration Guide

When applying this design system to an existing app:

Old Color	New Color	Token
-----	-----	-----
Blue (#007AFF)	Sage	<code>`colors.sage`</code>
Bright Green	Sage	<code>`colors.sage`</code>
Orange/Amber	Mustard	<code>`colors.mustard`</code>
Gray	Taupe	<code>`colors.taupe`</code>
Pure White (#FFF)	Warm White	<code>`colors.warmWhite`</code>
Pure Black (#000)	Dark BG	<code>`colors.darkBg`</code>
Light Gray BG	Cream	<code>`colors.cream`</code>

---

## ## Version History

Version	Date	Changes
-----	-----	-----
1.0	2026-01-29	Initial design system – colors, typography, spacing, components, ADHD UX rules, React Native implementation

---

## ## Quick Reference Card

### ### Colors at a Glance

| Purpose | Light Mode | Dark Mode |

|-----|-----|-----|

| Primary Action | Sage `#8BA888` | Sage Light `#96B893` |

| Brand Accent | Coral `#E8A598` | Coral Dark `#D99A8E` |

| Background | Cream `#F5F2ED` | Dark BG `#1A1A1A` |

| Card | Warm White `#FDFCFA` | Dark Card `#242424` |

| Primary Text | Charcoal `#2D2D2D` | Off-White `#F0EDE8` |

| Secondary Text | Stone `#5C5C5C` | Warm Gray `#A8A8A8` |

| Border | Taupe `#A69485` | Olive `#6B6B5E` |

### Component Sizes

| Component | Size |

|-----|-----|

| Button height | 56px |

| Input height | 56px |

| Touch target | 48-56px |

| Bottom nav | 64px + safe |

| FAB | 56px |

| Checkbox | 24px |

| Border radius (buttons) | 12px |

| Border radius (cards) | 16px |
